

# Improve Your **LIVE** Presentations!

After just one private session with master presentation coach Gary “Elijah” Wohlman, you’ll be amazed at the dramatic improvements you make in your live presentations. Now you can receive the same benefits Elijah provides as personal coach to leaders in business, managing directors, entrepreneurs, professional presenters and salespeople – along with their executive management teams – all over the world.

In even the first hour of a session with Elijah, you will make break-through in one or more of the following areas:

1. streamlined speech preparation:
2. greater rapport and “participatory” ease-of-interaction with your audience:
3. more engaging, dynamic and confident delivery:
4. strengthened stage presence and impact of voice and gestures: and
5. increased ability to “think-on-your-feet” and answer difficult questions – both LIVE and on the phone.

Book a session for yourself on your team – at the convenience of your office, home or nearby location – and you will see the results and influence you make with your clients and peers soar!

**VIDEOTAPE PRESENTATION COACHING SERVICE :** One way I can assist you -- even if we are not in the same city or country at the same time -- is for you to make a video of any presentation you are working on, showing me all the mistakes and challenges you can (it's best if it's not too perfect, so I can see and hear areas to give you feedback on)...You can provide alternative segments and vignettes of opening and key points and closing of your speech -- and I in turn will send you back (through audiotape, videotape, or by speaking with you directly on the phone) specific recommendations and tangible exercises to practice just like we did in our first LIVE session together in person. I will focus on how you can shift those *verbal, vocal and visual* patterns (via the *spoken word, voice, breath, posture and movement*) that will allow you to come across more authentically with your audiences -- with greater rapport, impact and physical presence.

In this regard, I have provided a number of international professional speakers from all over the world with this service for many years now, and if you find this approach to giving you continued support works for you, you can also develop different speeches and presentations and create more products to build your business (by creating a variety of specialised videotapes, audiotapes, training books) through utilising this approach. I propose this possibility to you with the thought that, in this way, you can have all the effectiveness of a LIVE coaching session (just like the one we just shared) in the privacy of your living room -- no matter where we are in the world.

How does this offer of ongoing support sound to you? Would you find this service valuable as you continue to develop your confidence on stage and in front of varied audiences?

I look forward to hearing from you soon in this regard, so you can continue to receive this support in light of developing your professional presentation skills to the fullest capacity.

Yours sincerely,

Gary Wohlman, PhD
